# WORK EXPERIENCE

**Unihub**                    2021 - 2022
**BACK-END DEVELOPER**

It was during this time that I did an internship at a Unihub company, in which I refined my development skills with PHP and MYSQL.

**CyberX World**          7 / 2022 - 11 / 2022
**BACK-END DEVELOPER**

I worked during this period in the CyberX company, and during this period I gained a lot of experience, as I developed many systems based on the Laravel Framework , and I also executed many APIs to send them to the front-end developer as well as mobile developers, and I dealt with many Packages

## WORKS

- ### Kawader Website :-

  It is a professional site, working to link employers and graduates to work remotely with the salary and contract system, a similar site to mostaql Website with a somewhat different idea .
  Link : www.cowader.com
  Github Repo :
  https://github.com/ahmedhasan689/kwader.git

- ### E-Commerce-Store :-

  Fold a commercial site, allowing users to describe products and categories, and the purchase is made with their financial accounts, and there is a special control panel for the supervisor and sub-administrators to give them full powers on the site with some rules .
  Github Repo:
  https://github.com/ahmedhasan689/E-Commerce-Store.git

- ### Sora Website :-

  Sora.com is a social networking site. In fact, it is my graduation project, in which photos are displayed and interacted with through likes and comments, as well as following System .
  Link : http://ahmed.omanframes.com/
  Github Repo :
  https://github.com/ahmedhasan689/Sora.git

- ### Workspace Website :-

  It is a site for office reservations, which combines the office owner and the tenant, through which the office is rented for a specific period and at a specific price as well .
  Github Repo :
  https://github.com/ahmedhasan689/Workspace.git
